

ORIAKHI OSAMUDIAMEN

Full-Stack Developer | Backend Developer (Laravel & Spring Boot)

oriakhiosamudiamen0404@gmail.com | (+234) 810 577 5687

oros-beta.vercel.app | linkedin.com/in/osamudiamen-oriakhi | github.com/oriakhiosamu1

PROFESSIONAL SUMMARY

Versatile Backend Developer specialising in Laravel (PHP) and Java Spring Boot, with hands-on experience architecting scalable RESTful APIs, securing systems to OWASP Top 10 standards, and integrating AI/LLM capabilities into microservices. Proficient in CI/CD pipeline design with GitHub Actions, database optimisation across MySQL and PostgreSQL, and third-party SDK integrations. Driven to bridge stable enterprise architecture with next-generation AI-driven systems.

WORK EXPERIENCE

Junior Backend Developer | Tech Champions

Feb 2026 – Present · Ikeja, Lagos

- Leveraged AI coding assistants (GitHub Copilot, Cursor) to accelerate feature delivery and reduce development cycle time.
- Engineered scalable RESTful APIs enabling seamless communication between frontend clients and MySQL databases.
- Integrated third-party SDKs for real-time geolocation, secure payment processing (Paystack), and automated SMS notifications.
- Designed and maintained relational database schemas using migrations to support evolving features without downtime.

Backend Developer Intern | Protocol Task AI

Sept 2025 – Mar 2026 · Remote

- Assisted in development, testing, and debugging of backend features within an AI-focused product environment.
- Participated in code reviews and knowledge-sharing sessions, improving team code quality and best practices.
- Supported documentation of development processes and contributed to API integration and system optimisation tasks.

Junior Full-Stack Developer | Fairview Hospital

Mar 2024 – Oct 2024 · Remote

- Designed and implemented a responsive patient management web application, improving data retrieval speed by 50%.
- Built and maintained a React frontend with real-time medical booking functionality.
- Implemented automated testing procedures that reduced post-deployment bug reports by 60%.
- Collaborated in code reviews with senior developers, following Git version control best practices.

RECENT PROJECTS

Backend Developer | Spring Boot E-Commerce Shop

April 2026 – June 2026

Tech stack: Java · Spring Boot · Spring Security · JPA/Hibernate · MySQL · JWT |

github.com/oriakhiosamu1/springboot_ecommerce_shop

- Built a fully-featured e-commerce backend entirely in Java Spring Boot, demonstrating end-to-end ownership of a production-grade system.
- Engineered secure authentication and authorisation using Spring Security with JWT, implementing role-based access control for customers and admins.
- Designed normalised MySQL schemas and managed database versioning with Flyway migrations, ensuring zero-downtime schema evolution.
- Implemented cart and order management modules with state-tracking logic covering cart creation, item updates, checkout, and order lifecycle management.
- Structured the application with clean layered architecture (Controller → Service → Repository), following SOLID principles for maintainability.

Backend Developer | Hotel Management System

Sept 2025 – Oct 2025

Tech stack: Laravel · MySQL · Paystack API · AI Chatbot Integration

- Developed a Laravel backend managing rooms, bookings, payments, and admin dashboards with multi-branch support.
- Integrated an AI chatbot for customer support, automating common user interactions and reducing manual support load.
- Implemented Paystack payment gateway with branch-level secret/public key handling for multi-location payment processing.
- Added auto check-in/out logic using real-time date validation and live room availability management.

SKILLS & COMPETENCIES

Backend: Laravel (PHP), Java Spring Boot, RESTful API Design, WebSockets, LLM/AI API Orchestration
Databases: MySQL, PostgreSQL, Redis · Flyway / Eloquent ORM / Hibernate
Security: Spring Security, JWT, OAuth2, OWASP Top 10 compliance
Frontend: React, Tailwind CSS, responsive UI development
DevOps: Git & GitHub, GitHub Actions, CI/CD pipeline design, Postman
Cloud: Vercel deployment, cloud hosting fundamentals
Soft Skills: Analytical problem solving · Cross-functional communication · Ownership & accountability

EDUCATION

NYSC · National Youth Service Corps	Nov 2024 – Nov 2025
BSc Biochemistry · University of Benin, Edo State, Nigeria	Apr 2019 – Dec 2023
WASSCE · Hussey Model College, Warri, Delta State	2012 – 2018

CERTIFICATION

AWS: Basics	Jul 2026 – Present (Ongoing)
Web Development Certificate · Edo Innovative Hub, Benin City	Jul – Oct 2022
